Introduction. In an article entitled ‘Distributed properties: a new architecture for leadership’, Peter Gronn (2000) outlined the concept of ‘distributed leadership’ (DL) as a potential solution to the tendency of leadership thinking to be divided into two opposing camps: those that consider it largely the consequence of individual agency (e.g. Bass 1985) and those that present it as ...

Essay. The Covid-19 pandemic—with, at the time of this writing, nearly two million cases worldwide and 113,030 deaths—has highlighted many of the difficult ethical issues that health care professionals confront in caring for patients and families. The decisions such workers face on the front lines are fraught with uncertainty for all stakeholders.

In struggles for cultural leadership, advocating a paradigm helps to disseminate, for example, a style of life, thinking, or common practices. Promoting a practice, that is, branding it, includes the use of a simple name or symbol (semiotic sign). Within geosciences, the label “geoethics” refers to a school of thought that uses established philosophical concepts to promote responsible ...
