Billing Flu Shots to Medicare and Commercial Insurance Companies. Since it is now flu season I have been getting a lot of questions on how to bill flu shots to commercial insurance companies and Medicare. The codes used for a particular vaccine will vary depending on intramuscular vs. intranasal use, age of the patient, formulation, preservative-free, and split or live virus.

A recent study showed that the reference range of cell-free hemoglobin in ostensibly healthy subjects is different between serum and plasma [8]. More specifically, the upper limit of the reference range of cell-free hemoglobin has been defined as 0.10–0.13 g/L in lithium-heparin plasma and 0.22–0.25 g/L in serum.
