The distinctive EnerGuide label is a familiar sight to most Canadians. We see it when we shop for new appliances, look at the literature for a new furnace or read the fine print on a light bulb package. The EnerGuide label lets us know how much energy a product uses and how that compares to similar models.

### The EnerGuide label | Natural Resources Canada

EnerGuide is the official Government of Canada mark associated with the labelling and rating of the energy consumption or energy efficiency of specific products. To find the percent of efficiency you do power out divided by power in. EnerGuide labelling exists for appliances, heating and cooling equipment, houses and vehicles.

After the Furlotte's EnerGuide evaluation and retrofit, their home rating went from 18 to 69—an impressive improvement. But for the Furlottes, the most impressive number is on their heating bills: not even one-third of what they'd been before the upgrades. "The winter of 2013-2014 was much colder than usual," says Maryse.
